

FOUNDATIONAL INFORMATION REQUIRED

1. The Problem Statement

- What specific, painful problem does this solve?
- Who experiences this problem most acutely?
- What does the problem cost them (money, time, stress, opportunity)?
- Why hasn't it been solved before?

2. The Solution

- What does the product actually do?
- How does it work (in plain English, not features)?
- What's the "before and after" transformation?
- What makes it different from existing alternatives?

3. Target Customer Profiles

- Who are the 2-4 distinct personas?
- What are their specific pain points?
- What belief shifts must happen for them to buy?
- What are their objections and how do you address them?

4. Business Model

- How do you make money?
- What's the pricing structure?
- What are the unit economics (CAC, LTV, margins)?
- What's the revenue trajectory (Year 1-5)?

5. Competitive Landscape

- Who are the alternatives (direct and indirect)?
- Why do you win against each?
- What's your unfair advantage/moat?

6. Traction & Validation

- What proof do you have that this works?
- Customer numbers, revenue, usage metrics?
- Testimonials, case studies, pilot results?

7. Team & Execution

- Who's building this and why them?

- What relevant experience/track record?
- What's the go-to-market plan?
